Used Kerosene.  
Thomas Roberts, aged ten years, son of Richard Roberts, of Rowayton, was seriously burned, last week, while attempting to hurry along a fire in the kitchen stove. The boy used kerosene oil liberally on the smoldering flames, and in an instant the fire flashed up in his face, and he was very painfully burned.

Capture of Counterfeiters.  
Secret service men arrested last week six Italians, charged with counterfeiting, in connection with the raid made by the force at the farm and property of Joseph Fegelle, in Wilton. The six men are: Joseph Fegelle, who is said to be the leader of the gang, and the other five are: Caesar Mandra, an expert die sinker; Rocco Figliolo, a printer; Philip Florio, Antonio Posca and Michael Amio. All are held under bonds of \$5,000 except Fegelle, whose bonds are fixed at \$10,000. Fegelle owns an estate of about 40 acres at Wilton. It was here that the secret service men discovered the plant, which appeared to be almost ready for the issuance of money. It is believed that only a few bills, five and ten, have yet been issued, but a very complete plant was found. Some of the secret service men had been stationed on a farm near Fegelle's for some time, and they noticed one of the men coming out one day and burying something, marking the spot with a flagstone. After he had gone they went over, and unearthed some plates. Then the raid was made. In the plant there were found plates for the making of \$5 Indian head bills, a large printing press for printing bills, a quantity of onion skin paper, which is a very close imitation of the paper used by the government, some coupon bills. There were 200 ounces of sheet silver, 925 fine, which is 25 grains finer than the government uses. Captain Flynn said he was sure none of the silver had been circulated yet, and believes that the only bills out are four, which were found on Figliolo, and one on Fegelle. He figured that the men had invested about \$5,000 in their plant.

## HIGH SCHOOL PUPILS MAY NOT WRITE ON HORRORS OF VACCINATION

It is understood that the Board of Education will vote at its meeting this afternoon not to accept the offer of Major Thomas Bourne of a prize of \$50 for the best statement of the horrors of vaccination that may be written by a high school pupil, the ground of the action being that it will be expedient to involve the pupils in anything about which there is so much local difference of opinion.

## ENGLAND ALARMED AT KAISER'S VISIT TO THE CZAR

(Special from United Press.)  
London, June 3.—The sudden and unexpected announcement that Emperor William and Chancellor Von Buelow were to pay a visit to the Czar at Reval or off the Finnish coast, the middle of June, has so alarmed English diplomats that a campaign was started to-day to discourage the Czar's suggested visit to London. The belief is universal that the meeting of the Russian and German monarchs forebodes a tightening of relations between these two countries to the detriment of the Russo-English treaty. The English foreign office attaches the greatest political significance to the affair.

## Hanging Armenians For Turkish Massacres

(Special from United Press.)  
Constantinople, June 3.—Six innocent Armenians were sacrificed in the hanging at Adana yesterday to give a semblance of truth to the charges of the Turkish investigating committee that the Armenians were partly responsible for the recent massacres throughout Asia-Minor, according to dispatches received to-day from missionaries in Adana.

The Armenians, who were hanged along with nine Mohammedans, had absolutely no hand in starting the trouble, missionaries say. When they were first accused the missionaries thought it was merely a part of the white-washing scheme it was feared the investigating committee would attempt. Intense surprise and indignation are expressed that the pretense should have been carried to the point of hanging the victims.

An attempt to secure diplomatic interference to prevent the hanging of any more of the Armenians is now under consideration by the missionaries.
